Integrtrade Lifecycle Solutions certifies all listed equipment was processed to industry standards, with data storage devices sanitized/destroyed beyond commercial recovery, in compliance with applicable environmental regulations.

DATA STORAGE DEVICES**1 PROCESSED****Degauss + Shredding**
1 DEVICE

The complete asset schedule, every device with serial number, method and completion date, is attached on the following page.

This certificate is issued by Integrtrade Lifecycle Solutions and confirms that all data storage devices listed in the attached asset schedule have been processed by trained and authorized technicians certified to the highest industry standards. Electronic records of sanitization are maintained and available upon request. A minimum 5% sample QC verification has been performed. This document serves as the official record of data destruction for compliance, audit, and chain-of-custody purposes.
