Integratrade Lifecycle Solutions certifies that all listed equipment and data storage devices have been sanitized and processed in accordance with NIST SP 800-88 Rev. 2 and IEEE 2883-2022 standards. Depending on the device disposition specified in the Asset Schedule, media underwent either Logical Sanitization (Clear / Purge) via automated, verified erasure software, or Physical Destruction (Destroy) via degaussing and mechanical shredding, rendering all target data infeasible to recover.

DATA STORAGE DEVICES

8 PROCESSED

Physical Destruction
6 DEVICES

Logical Sanitization
1 DEVICE

No Drive Present
1 DEVICE

The complete asset schedule, every device with serial number, method and completion date, is attached on the following page.

This certificate is issued by Integratrade Lifecycle Solutions and confirms that all data storage devices listed in the attached asset schedule have been processed by trained and authorized technicians certified to the highest industry standards. Electronic records of sanitization are maintained and available upon request. A minimum 5% sample QC verification has been performed. This document serves as the official record of data sanitization and destruction for compliance, audit, and chain-of-custody purposes.
